

ng2-pdfjs-viewer — Product Guide

A sample document generated for the feature playground. Try the search tool (🔍) for the word **“declarative”**, switch scroll modes, or select text.

1. Introduction

The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API.

2. Installation

The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API.

3. Declarative inputs

The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API.

Chapter Two

4. Events

The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API.

5. Theming

The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API.

6. Accessibility

The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API.

Chapter Three

7. Performance

The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API.

8. Summary

The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API. The ng2-pdfjs-viewer component wraps Mozilla PDF.js to deliver a fast, accessible, mobile-first PDF experience in Angular applications with a fully declarative API.
